# Milos

A leading, global  
manufacturer  
of high-quality  
truss

Milos is known around the world as one of the leading manufacturers of high quality aluminum structures and accessories for the entertainment industry. Milos is a dominant player in large-scale supply where safety, experience, global support and industry knowledge are absolutely crucial.

Milos now offers a new range of ultra-compatible products designed for small and medium-sized DJ installations. DJs are provided with cost-effective solutions that meet their expectations, while not limiting their growth. Every product comes with the highest quality workmanship, backed by a strong partner that is always available to provide first class support.

# M100

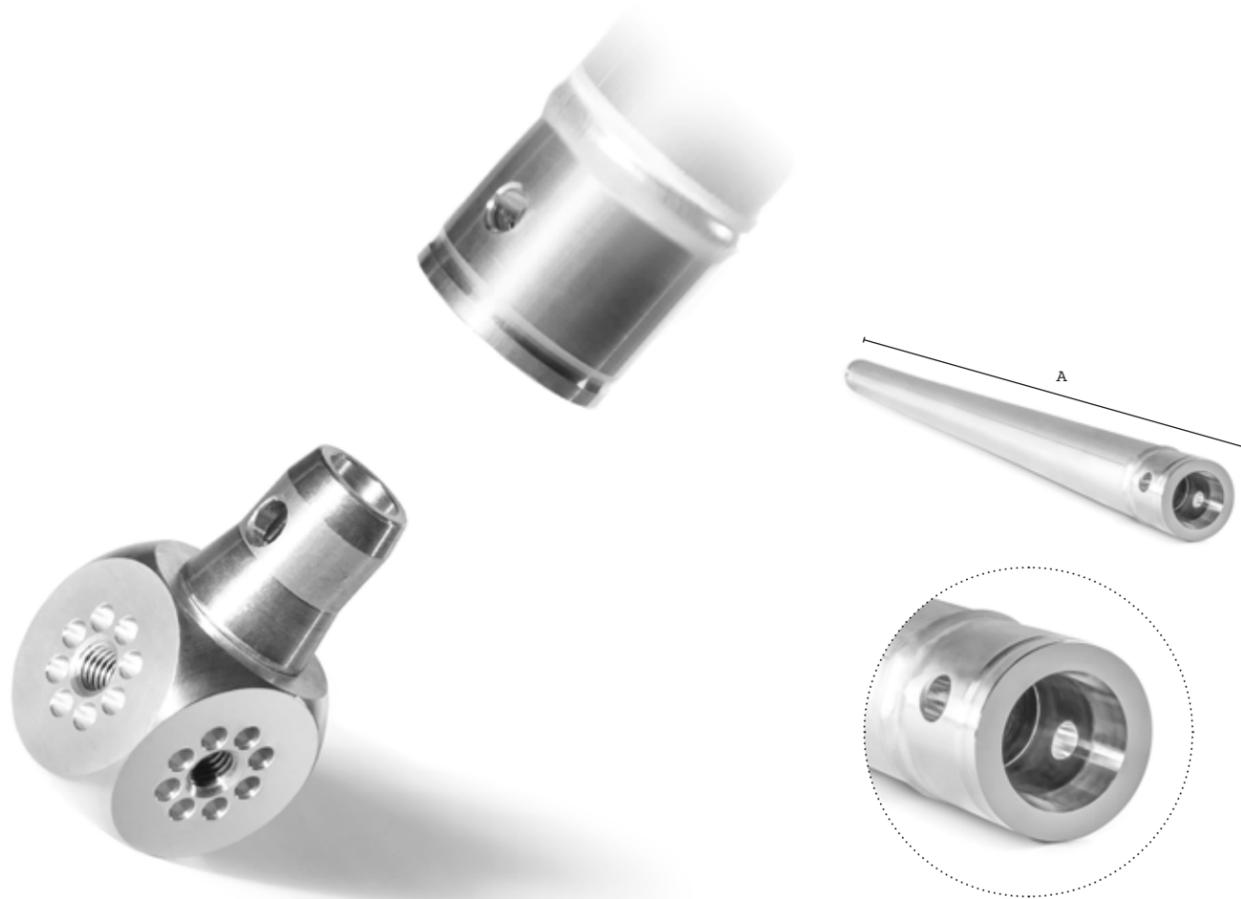

---

Extremely versatile  
mono-cube system ideal  
for single tube structures  
and matrix grids

# M100

## For single tube structures and matrix grids

M100 is an extremely versatile mono-cube system ideal for single tube structures and matrix grids. Each 'node' consists of a solid aluminum cube with threaded sides that allows you to construct simple 2-way junctions to complex 6-way intersections. M100 uses 50×2 mm (2"×1/2") tubes fitted with CNC machined female receivers for extremely fast, simple and secure construction.

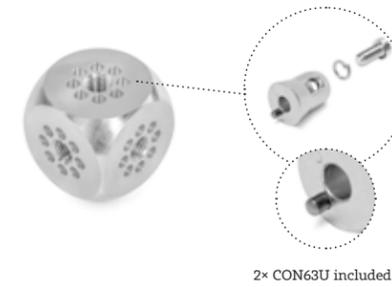

### Standard available lengths and weights

m	ft	A							
			0.50 (1' 8")	1.00 (3' 3 1/2")	1.50 (4' 11")	2.00 (6' 7")	2.50 (8' 2 1/2")	3.00 (9' 10")	
kg	lbs		0.72 (1.58)	1.12 (2.48)	1.53 (3.38)	1.94 (4.28)	2.35 (5.18)	2.76 (6.08)	

\*Connection material (pins/clips/couplers) and packaging not included in above weights

Tubes	50×2 mm (2"×1/2")
Alloy	EN-AW 6082 T6

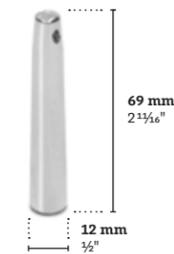

# M100 Accessories

### CUBEU-UNI

Series	kg	lbs
M100	0.27	(0.60)

Universal multiconnection cube with 360° adjustment. Cube is supplied with 2× CON63U.

### PB

Series	kg	lbs
M100	0.02	(0.04)

Pin B.

### CCU

Series	kg	lbs
M100	0.11	(0.24)

Conical connector M290UU.

### HINGEU-UNI

Series	kg	lbs
M100	0.49	(1.08)

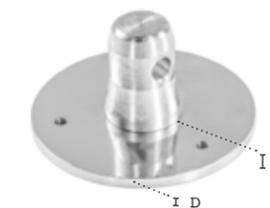

Universal hinge with two sets of CON63U.

### PBM8

Series	kg	lbs
M100	0.02	(0.04)

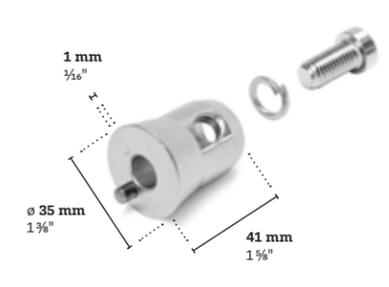

Pin B with thread M8. Supplied with washer and nyloc nut.

### UBPSC

Series	kg	lbs	mm	in
M100	0.19	(0.42)	Ø 100	(3 15/16")
			C 10	(3/8")
			D 5	(3/16")

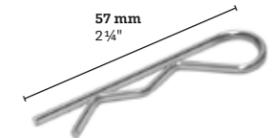

M100 base plate single with half connector.

### CON63U

Series	kg	lbs
M100	0.17	(0.37)

Male fitting for CUBEU-UNI, QCU1, equipped with location pin. Supplied with washer and M12×25 bolt.

### SRPB

Series	kg	lbs
M100	0.002	(0.01)

Safety R Clip B.

### CL50

Series	kg	lbs
M100	0.03	(0.07)

Clip 50. Banner attachment for tube d = 50 mm (2"). Color: Clear. Not compatible with 48 mm (1 57/64") tube.

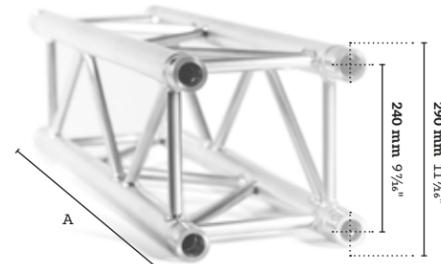

# QuickTruss® Ultra (M290UU) and Accessories

Mid-sized truss line offered in the Milos truss portfolio family that offers compatibility with most 12" square conical connector truss systems on the market

# QuickTruss® Ultra (M290UU)

## Truss for large and small applications

The QuickTruss® ULTRA (M290UU) system is a mid-sized truss line in the Milos truss portfolio and offers compatibility with most 12" square conical connector truss systems on the market. M290UU fits nicely in both large and small applications. It offers great spanning and weight loading capabilities, while providing a decorative touch! M290UU is available in custom lengths and junctions, and can be curved (see Circle Section). It comes in natural silver or a wide variety of powder coated colors and finishes.

# Cell Clamps

---

Safe and secure mounting of fixtures, support structure suspension, and secure tube connections

# Cell Clamps

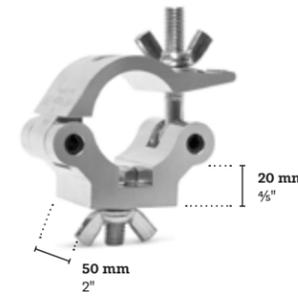

## For safe and secure mounting

Safe and secure mounting of fixtures, support structure suspension, and secure tube connections all begin with Milos cell clamps. High quality extruded aluminum for extended durability and reliability. Compatible with tube diameters from 48-51 mm (1 7/8"-2"). Cell clamps are made from ultra high tensile aluminum alloy. Their highly polished surface is marked by a microprecussion method that ensures easy identification. TUV certification is available on select models.

- Ultra high tensile aluminum alloy
- Highly polished surface
- Anodized versions on request

# Cell Clamps

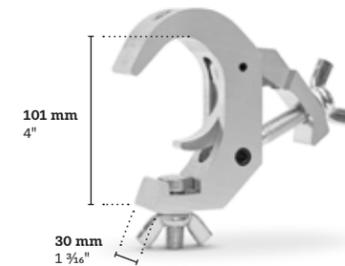

**CELL202**

kg lbs Basic clamp with bolt and wingnut.

SWL	Weight	mm	in
650 (1433)	0.59 (1.30)	Ø 48-51	(1 5/8"-2")

Clamp supplied with M12x35 bolt and wingnut.

**CELL402**

kg lbs Quick clamp with bolt and wingnut.

SWL	Weight	mm	in
360 (794)	0.75 (1.65)	Ø 38-51	(1 1/2"-2")

Universal and lightweight  
solutions for your events

# DJ Truss Kit

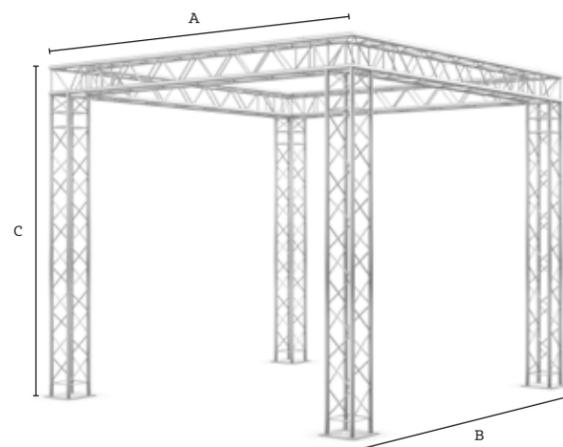

## Truss booths and gates for the discerning DJ

Our standard 4 leg truss booths are made from universal and lightweight M290UU Quatro truss and provide four horizontal truss spans to mount lights, audio, hardware, drapes and more. They're equally at home in clubs, bars, exhibition halls, motion capture studios - anywhere that could benefit from truss support. The DJ Gate is a lightweight QuickTruss ULTRA (M290UU) Quatro truss kit providing a single horizontal truss span to rig lights, audio, hardware, drapes and more. Either system can be adjusted to suit dimensional requirements while their modularity offers great versatility in the field. Their QuickConnect conical connection system enables fast, tool-free assembly and break down.

### TRUSS 4 LEG BOOTH

Standard sizes	Width	A	Depth	B	Height	C	Plates
Booth 4x4	4 (13' 1 1/2")		4 (13' 1 1/2")		3 (9' 10")		UBPQC
Booth 5x5	5 (16' 4 1/2")		5 (16' 4 1/2")		3 (9' 10")		UBPQC

# DJ Truss Kit

## Glow and Milos Totems

Glow Totems are the perfect accessory for the mobile DJ. The system includes 4 tubes with standard lengths of 1.5 m (4' 11"), 2 m (6' 7") and 2.5 m (8' 2 1/2") as well as top and bottom plates, fire retardant scrim and all necessary connection material. Milos Totems are upright truss displays that are simple to build, break down and require no additional support. Place lights inside or outside the truss framework depending on your needs. Use in conjunction with scrim to create an eye catching, dramatic lighting display. Milos Totems can also be used for mounting video screens. Totems are ideal for clubs, bars, hotels, weddings/formal events and restaurants. Tool-free assembly enables fast set-up and break down.

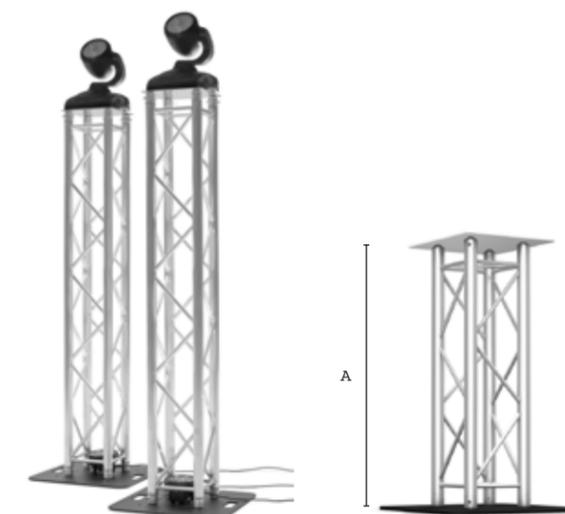

### GLOW TOTEMS

Item	Height	m	ft	Tubes	mm	in	Plates

restaurants, exhibits,  
lecture halls and more

# Furniture & Lecterns

## Truss Bar Chairs and Tables

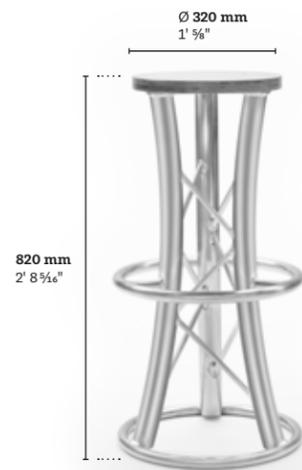

Bar chairs and tables are a great addition to exhibits, restaurants, and other locations where a sleek modern look is desired. Combining the clean lines of truss with a finished wooden top, Milos truss chairs and tables are lightweight and durable. Two distinct designs are available.

**MMD115**

Bar stool with 4 legs.

kg lbs 7 (15.43)

**MMD161**

Bar stool with three legs and round base.

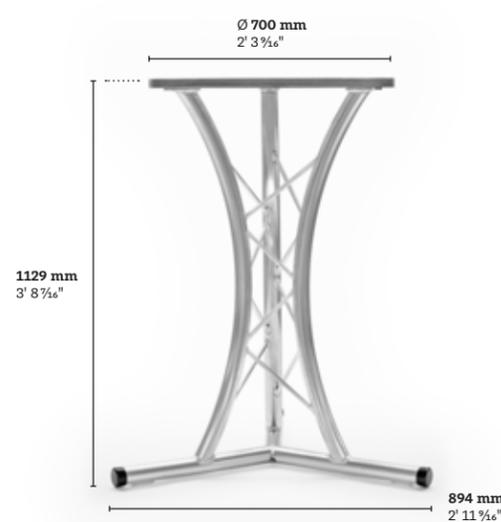

kg lbs 5 (11.02)

**MMD116**

Bar table with four legs.

kg lbs 16 (35.27)

**MMD162**

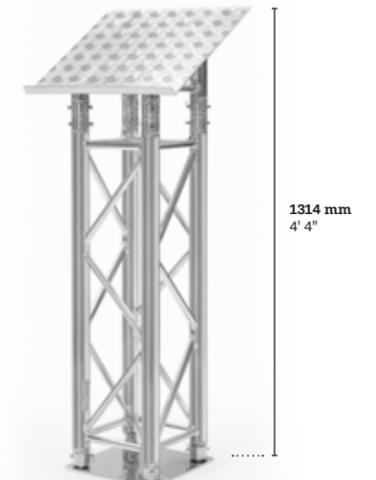

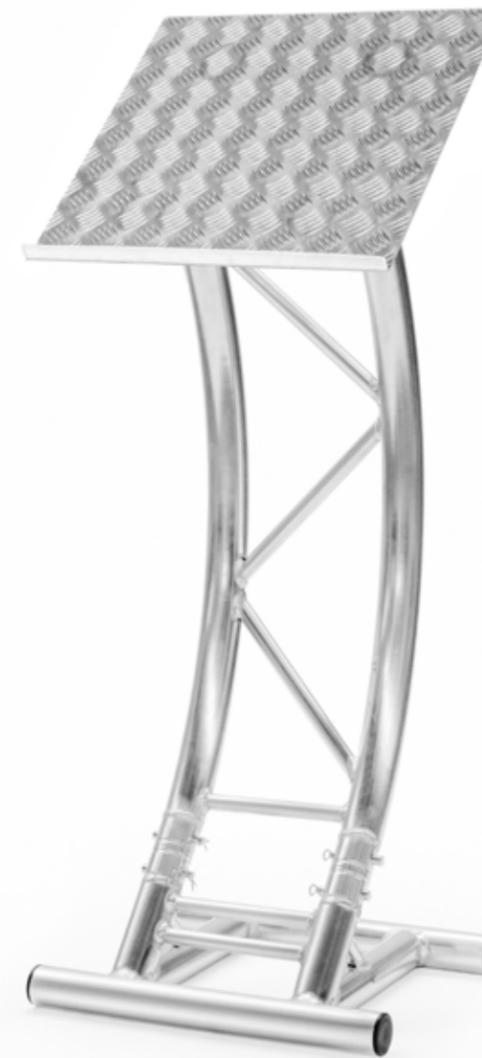

Bar table with three legs.

kg lbs 12 (26.45)

# Furniture & Lecterns

## Lecterns

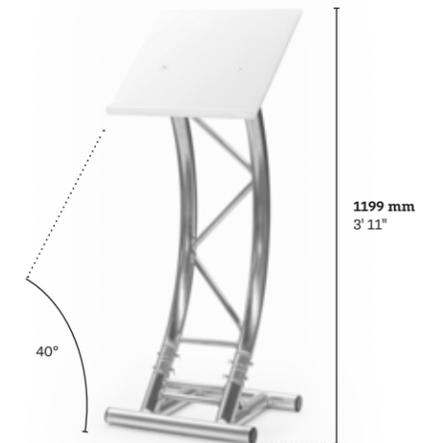

Milos Lecterns are ideal for churches, schools, or anywhere that a speaker could use a little support. Contemporary design and aluminum construction make these as practical as they are durable. Our standard lectern has a removable top, allowing truss and base plates to be used for multiple applications.

**MMD143U**

Standard lectern. Removable top can be combined with various straight pieces of truss.

kg lbs 12.20 (26.89)

**MMD141U**

Lectern with modern curved design.

kg lbs 7 (15.43)

# MT05

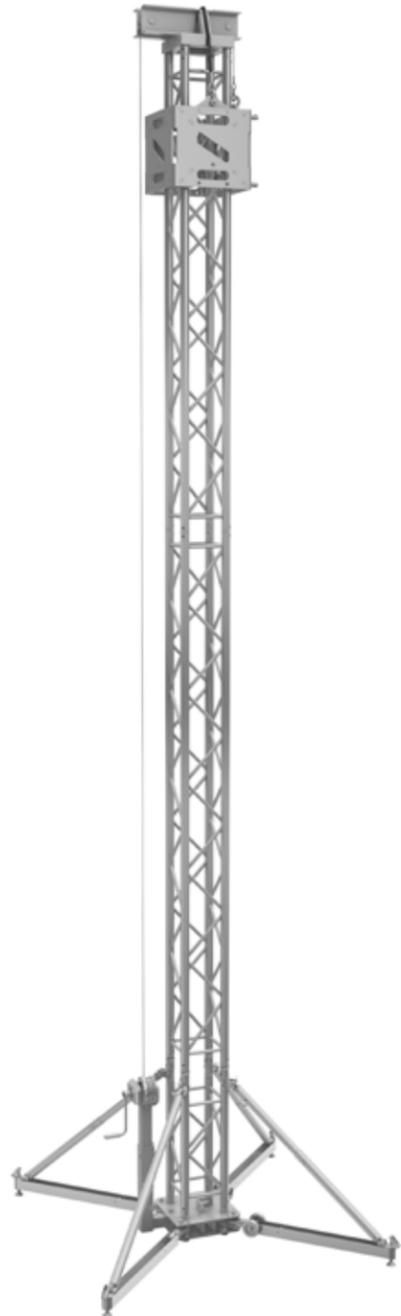

---

Light-duty, self-climbing  
truss tower ideal for small  
events & ground supports

# MT05

## Towers

MT05 is a light-duty self climbing truss tower ideal for small events & ground supports. The MT05 is designed to use M290UU Quatro verticals and a versatile sleeve block that can be configured for M290 Quatro. Safe, stable & simple lifting of loads can be completed using either a compact hand-winch, optional manual chain hoist or electric motor(s).

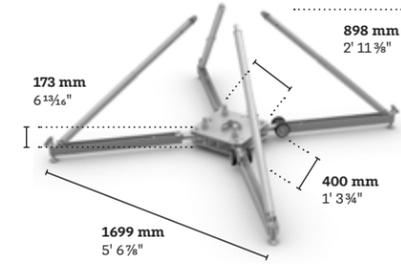

Height	m	ft	6.2 (20' 4")
Capacity with hand-winch	kg	lbs	500 (1103)
Self weight	kg	lbs	125 (276)

### Components required to construct one MT05 Tower

MT05-01U	Aluminum base incl. outriggers	1 piece
MT05-02U	Head section chain and wire	1 piece
MT05-03U	Sleeve block	1 piece
MT05-06	Alko hand-winch	1 piece
MT05-07U	Hinge parts - set of 4 pcs	1 set = 4 pieces
MT05-10	Safety wire	1 piece
QTUU 700	QTUU length 0.70 m (2' 3½")	1 piece
QTUU 2500	QTUU length 2.5 m (8' 2½")	1 piece
QTUU 3000	QTUU length 3.0 m (9' 10")	1 piece

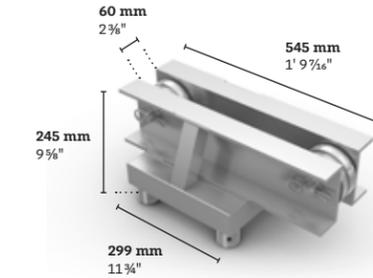

# MT05

### MT05-01U Aluminum base

Base with foldable long outriggers.

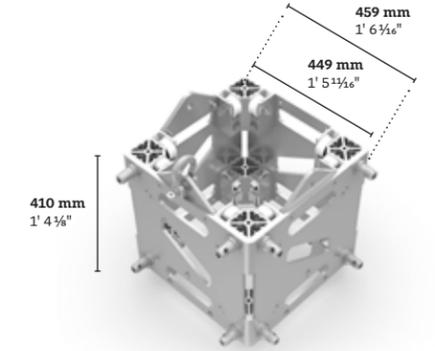

kg	lbs	35 (77.15)
----	-----	------------

### MT05-02U Head section

Head section for chain and wire.

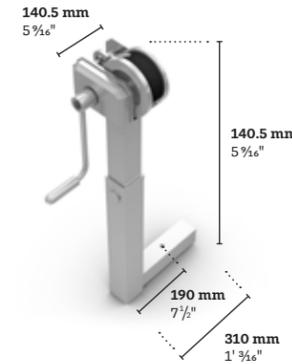

kg	lbs	13 (28.65)
----	-----	------------

### MT05-03U Sleeve block

Whole aluminum sleeve block with powerful performance of 1103 lbs capacity suitable for connection of M290.

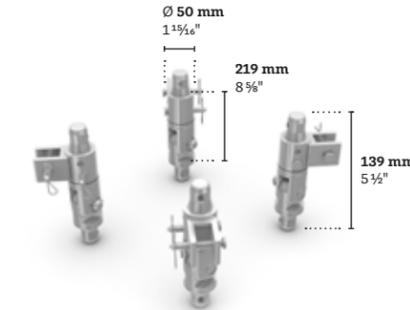

kg	lbs	33 (72.74)
----	-----	------------

### MT05-06 hand-winch

The Alko hand-winch is equipped with a square aluminum leg, which fits into the base.

kg	lbs	10 (22.04)
----	-----	------------

### MT05-07U Hinge parts

Used to connect the vertical Quatro pieces together and to allow for tilt-up assembly. 4 off hinge parts per set.

## Xstage

### Raising your performance to new levels

Xstage is a line of portable, modular stages made from high-quality, extruded aluminum. Their legendary versatility, strength and durability suit a wide variety of applications. All stages are height adjustable, stable, easy to construct and feature compact storage. Additional accessories allow them to be used as catwalks, dance floors and a host of other applications.

## EXE

### Safe, Precise, Certified

The EXE range has been engineered to safely move and position stage equipment, video walls and other related structures before, during and after your performance.

## Xtruss

### Extend the possibilities of your truss

Xtruss components considerably extend the usefulness of classic trusses. They allow a simple mounting of diverse materials and formats to the trusses through a series of systemized, reusable add-ons. They multiply the range of applications by allowing trusses to be reconfigured, repurposed or reinvented with minimal investment. Xtruss creates almost limitless possibilities with your existing truss inventory.
